

Jake Ruiz Zeledon

Full Stack Software Engineer

I specialize in crafting pixel-perfect, engaging, and accessible digital experiences, leveraging my wealth of experience and expertise. With a focus on innovation and quality, I thrive on tackling challenges and delivering outstanding results.

EXPERIENCE

Engineering Team Lead · Nिकासource Apr 2022 – Sep 2023

Software Developer Jul 2021 – Mar 2022

- Built, styled, and shipped high-quality websites, web apps, Alexa skills, chatbots and digital experiences for a diverse array of projects for clients including iHeartMedia, Skilled Creative, Big Spaceship, Studio IVL, and Struck.
- Provided leadership within conversational development team through close guidance to help them achieve our objectives and maintain a commitment to excellence in crafting innovative and impactful conversational experiences.
- Led the development and architecture of technical tools like REST APIs and continuous integration, building from scratch using programming languages and frameworks to meet business requirements.

Voice Developer · Atlas Primer Oct 2021 – May 2022

- Built and maintained critical components used to improve Atlas Primer skill.
- Collaborated closely with cross-functional teams, including developers and key stakeholders such as the CEO.

Programmer · Nicaraguan Social Security Institute Feb 2021 – Jun 2021

System Integrator Apr 2018 – Jan 2021

Digitalization Operator Apr 2017 – Mar 2018

- Enhanced the functionality of full-stack apps across web platforms by introducing new features and performing bug fixes.
- Led the QA team, overseeing the design, coding, and implementation of a suite of tools and programs. These tools covered database impacts, software scenarios, unit testing, end-to-end testing, error/bug retesting, and usability, ensuring comprehensive quality assurance.
- Maintained responsibility for ensuring accurate calculation of pensions and their various variables, achieving coverage of over 90% of algorithms to guarantee reliability and precision.

Frontend Developer · Atomic Developers 2017 – 2021

- Led the development of enriched user experiences and dynamic interactions, using advanced animation methodologies to enhance engagement.
- Spearheaded the creation of front-end elements, refined visual design aesthetic, and precisely prototyped for seamless integration across responsive platforms.
